

Denken Sie an die Mount Points !

Wie in Tip *windows_20.pdf* gezeigt, müssen Sie in der Save Set Liste des Clients explizit eingetragen werden.

Wird ein später erstellter Mount Point hier nicht eingetragen, kann er natürlich auch nicht gesichert werden.
 Aus diesem Grund sollten die Anwendungs-Verantwortlichen, z.B. die Datenbank-Admins immer auch die Vollständigkeit der Backups überprüfen - andernfalls erfahren die Backup-Admins nichts von den notwendigen Anpassungen.

In diesem Fall tauchte das Problem erst durch einen Reboot auf - und der wurde im Rahmen eines routinemäßigen Patch-Vorgangs ausgelöst:

The screenshot shows a 'Show Messages' dialog box with the following content:

```

Below are the messages for the saveset.

suppressed 342 bytes of output.
[redacted] : D:\ level=full, 5606 MB 00:01:44 332 files
Completed savetime=1454612897
90015:save: The backup of VSS emit save set 'D:\' succeeded.
94694:save: The backup of save set 'D:\' succeeded.
69435:save: DFS Junction/Mountpoint detected: files/directories under 'E:\DATA01\' will not be backed up. To back up a
DFS Junction/Mountpoint, specify the DFS Junction/Mountpoint as the saveset value.
69435:save: DFS Junction/Mountpoint detected: files/directories under 'E:\LOG01\' will not be backed up. To back up a
DFS Junction/Mountpoint, specify the DFS Junction/Mountpoint as the saveset value.
69435:save: DFS Junction/Mountpoint detected: files/directories under 'E:\TEMPDATA\' will not be backed up. To back up a
DFS Junction/Mountpoint, specify the DFS Junction/Mountpoint as the saveset value.
69435:save: DFS Junction/Mountpoint detected: files/directories under 'E:\TEMPLOG\' will not be backed up. To back up a
DFS Junction/Mountpoint, specify the DFS Junction/Mountpoint as the saveset value.
[redacted] : E:\ level=full, 49 MB 00:00:07 116 files
Completed savetime=1454612998
90015:save: The backup of VSS emit save set 'E:\' succeeded.
94694:save: The backup of save set 'E:\' succeeded.
[redacted] : E:\DATA01 level=full, 32 KB 00:00:03 22 files
Completed savetime=1454613034
90015:save: The backup of VSS emit save set 'E:\DATA01\' succeeded.
94694:save: The backup of save set 'E:\DATA01\' succeeded.
[redacted] : E:\LOG01 level=full, 30 KB 00:00:03 19 files
Completed savetime=1454613094
90015:save: The backup of VSS emit save set 'E:\LOG01\' succeeded.
94694:save: The backup of save set 'E:\LOG01\' succeeded.
[redacted] : E:\TEMPDATA level=full, 4096 MB 00:01:52 23 files
Completed savetime=1454613120
90015:save: The backup of VSS emit save set 'E:\TEMPDATA\' succeeded.
94694:save: The backup of save set 'E:\TEMPDATA\' succeeded.
